Sarah: I made three entries for UIC under Near Term Issues but was not able to save it under the current file name. I did create a different file ("...Water Program") within the OPRA LT folder to capture my input.

Subject: FW: ACTION BY noon 8/25; Further clarification Presidential Transition - Near Term/Major Issues & External Stakeholder Meetings

Hi all --

See below for further clarifications and EARLIER deadline.

Here are some ideas for Water:

Spreadsheet Tab 1: Near-Term Issues

UIC NDIC report

TAT refinery – NPDES

DW/UIC/WW jurisdictional issues

Dewey Burdock (draft permit might be out, but not final)

Spreadsheet Tab 2: Other Major Issues

Lead in DW & DI role in Wyoming

PFC contamination in DW

Marathon NPDES permits

Spreadsheet Tab 3: External Stakeholder Meetings

none

Subject: ACTION BY noon 8/25; Further clarification Presidential Transition - Near Term/Major Issues & External Stakeholder Meetings

We have more clarification, following a conversation with Ben B., on what to include in this exercise.

- * Let's cast a wide net. Err on the side of including too much rather than not enough.
- * By noon Thursday 8/25 add your items to the link below.
- o The OPRA IO will vet and forward to Ben by COB Thursday.
- o He'll brief Deb Thomas who will make the final call by COB Monday on what to include.

Here are some of the items we discussed at LT, to prompt your thinking:

- * U&O FIP

Ex. 5 Deliberative Process (DP)

- * Western ozone
- * NDIC report

Ex. 5 Deliberative Process (DP)

- * Key meetings such as Air DD, RCRP and PESP

Current Data Call

- **Deadline: COB Fri, 8/26**
- Please enter all information into the OPRA tracking sheet, linked below.
- **Spreadsheet Tab 1: Near-Term Issues:** List all key R8 issues the incoming Administration (Administrator, RA, or their acting) may need to address (i.e., take action, make a decision on) between 1/20/17 – 4/30/17. Also include issues where no formal deadline exists but a delay in action could threaten human health and the environment, create an awkward situation for the incoming Administration, or trigger an adverse default course of events. Do not include regulatory deadlines (HQ will use ADP Tracker for those items).
- **Spreadsheet Tab 2: Other Major Issues:** List all key R8 non-urgent but important issues (ongoing or anticipated to emerge) that merit the attention of the incoming Administration. Include issues that could impact multiple parts of the Agency or multiple stakeholders. These issues may be programmatic or operational, emerging, or particularly “sticky” environmental problems. Providing this information will help draw attention to important issues.
- **Spreadsheet Tab 3: External Stakeholder Meetings:** List all R8 meetings scheduled with external stakeholder meetings between 1/20/17 – 4/30/17, which EPA senior officials (e.g., RA, AA, DA or Administrator) would typically attend or, are an opportunity for the new Administration to engage with important stakeholders. Examples could include: ECOS, NACWA, and NACAA.
